

SIVER[®]

That's what you need for efficient work!

SIVER TC

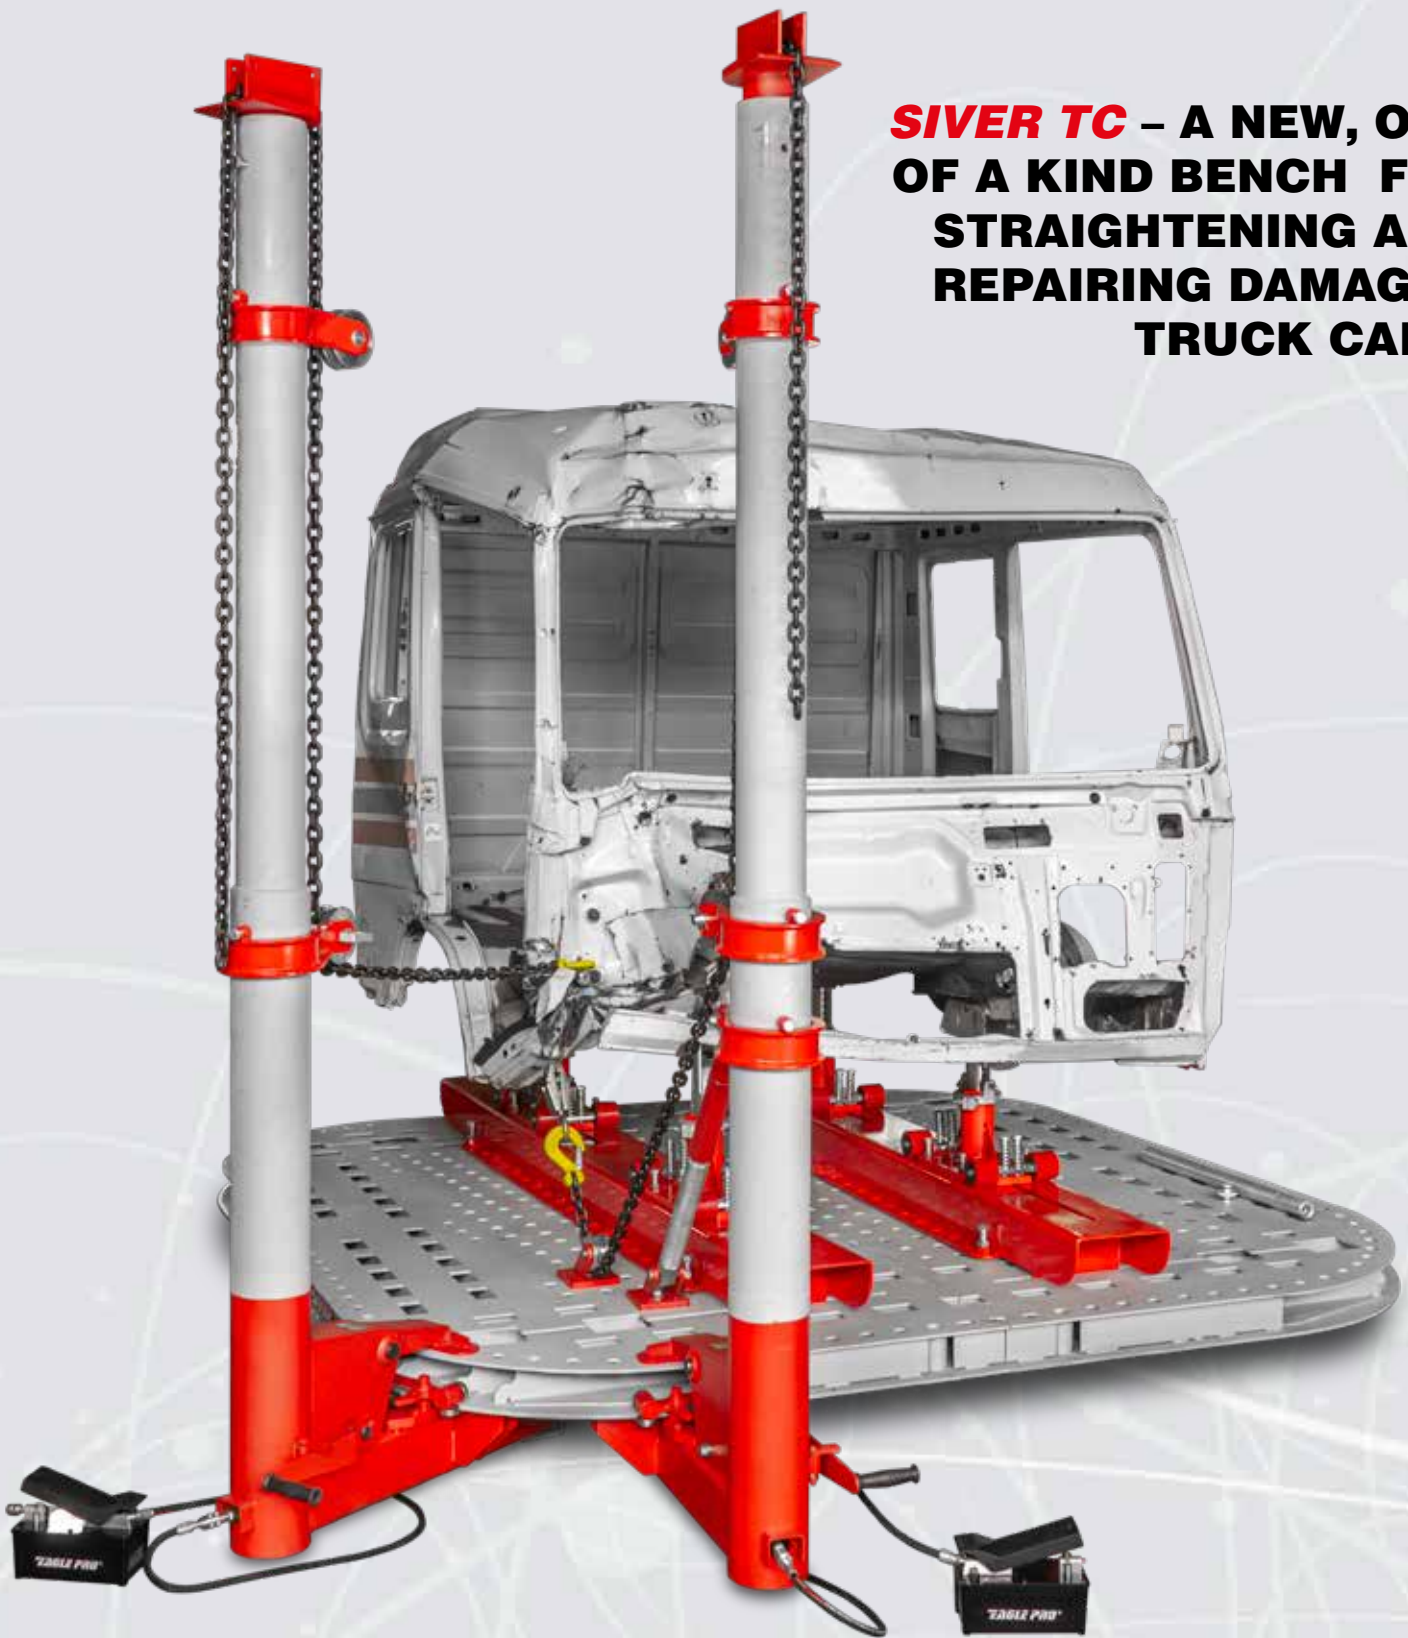

**Straightening system for repairing
damaged truck cabs**

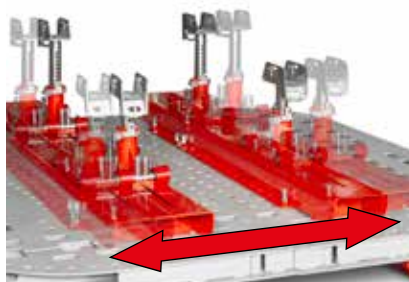

EAC

MADE IN RUSSIA

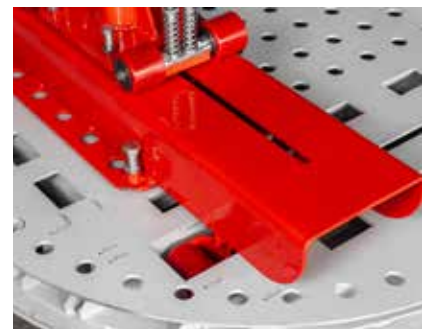

SIVER TC – A NEW, ONE OF A KIND BENCH FOR STRAIGHTENING AND REPAIRING DAMAGED TRUCK CABS!

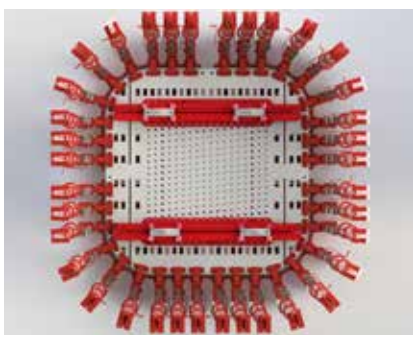

Special adapters fix any cab to mobile supports with carriages.

The supports are fixed on the frame in increments of 5 mm. The range of installation of supports is 400–1750 mm.

The supports and carriages are easy to move on rollers with a durable polyurethane coating.

Power devices are located on the platform and easily move around it, creating a 360° working area.

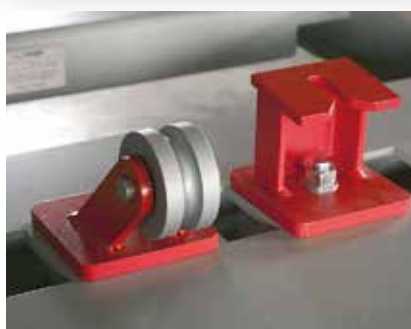

Height-adjustable chain-rollers allow you to set any pull direction.

Original roller mechanism for easy movement. Fast and rigid fixation in one of 112 positions.

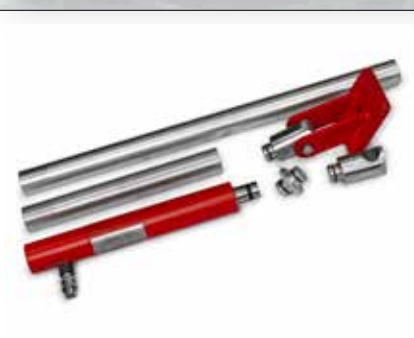

Pneumohydraulic pumps are used to control power devices. 10 t pulling force.

Down-pull-attachment and chain lock are included in starter kit and can be mounted on a platform.

Special equipment kit includes all the necessary clamps to get started. Chain length 5m.

Hydraulic cylinder 10 t with extensions. It is used as an emphasis of the power device and for local repair of the cabin.

There are 3 pairs of different cabins mounting adapters included.

Removable platforms for movable supports (4 pcs.) provide even more options for fixing the cabin.

ОПЦИИ И АКСССУАРЫ

Cabin transportation trolley.

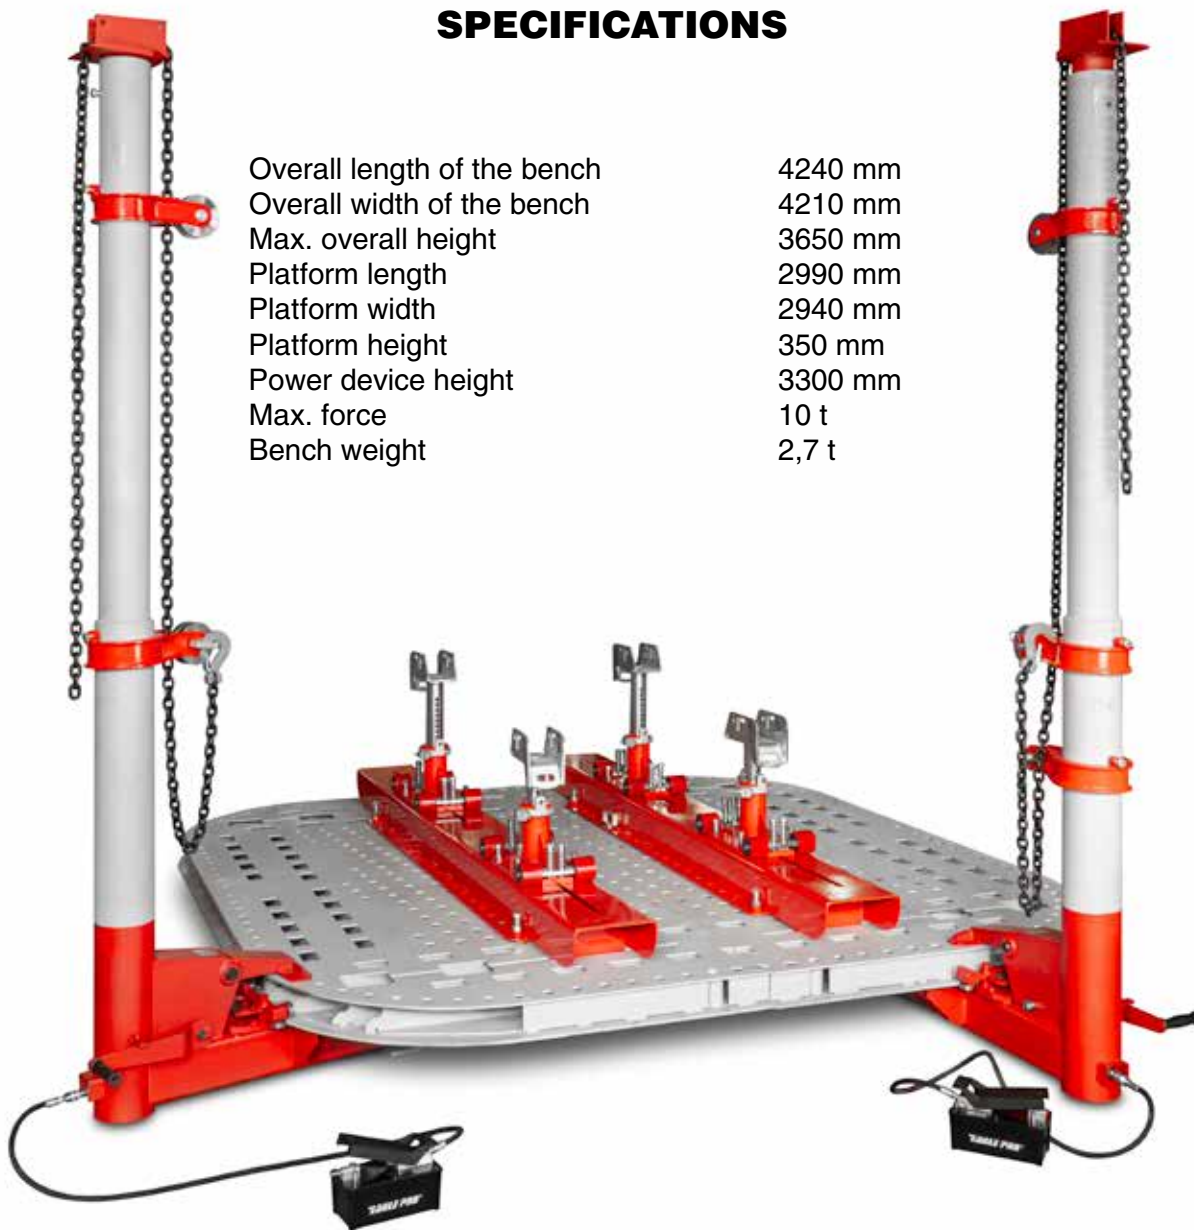

Trolley for special equipment and accessories.

Pull-up beam.
